MIT WORLD PEACE UNIVERSITY

Master of Computer Application

2023- 2025

CGPA: 7.25

SGBAU

Bachelor of Science

2019- 2022

CGPA: 8.53

Experience

SEVEN MENTOR Pvt Ltd

Sep 2023 – Mar 2024

Java Developer Intern

Pune, Maharashtra

- Developed a full-stack e-blogging platform using Spring Boot, showcasing expertise in Java, Spring MVC, RESTful APIs, and database integration.
- My primary tasks include identifying and resolving issues in the codebase by leveraging my **Core Java** expertise and problem-solving abilities.
- Worked closely on integrating MySQL with the backend Java system, optimizing database interactions for better performance and reliability.
- Explored ways to collaborate with the team using Git for version control and Jira for project management.

Projects

College Management System(ERP) / Java, Eclipse, MySQL, JDBC.

- Created a Java application using **Java, MySQL, and JDBC** for the efficient management of student and faculty data.
- Key features encompass student management, course administration, and a feedback system to enhance communication and engagement within the educational institution.
- Utilized core Java concepts such as inheritance, polymorphism, encapsulation and object-oriented programming (OOP) principles to build a scalable and maintainable system.

Healero - Physiotherapy App(GUI) / Html, CSS, Js.

- Developed the frontend of the Healero physiotherapy app using HTML, CSS, and JavaScript, providing a user-friendly interface for the app's functionalities.
- Designed a responsive and user-friendly interface for the app.
- Designed and implemented responsive layouts and visual elements to enhance the user experience across different devices.

Personal Portfolio | HTML, CSS, JavaScript

- Developed a personal portfolio website to showcase projects, skills, and achievements.
- Designed a responsive and visually appealing interface to highlight professional work.
- Implemented interactive elements such as contact forms and project galleries to enhance user engagement.
- Managed content updates and ongoing maintenance to ensure the website reflects the latest information and developments.

Technical Skills

Languages: Java, JavaScript, C, C++, Python.

Frameworks: Spring boot, Hibernate, React.js.

Developer Tools: VS Code, Eclipse, Postman.

Databases/Technologies: MySQL, MongoDB, Linux, GitHub, JUnit.
